

COM 2000

\$1295

complete with mounting
tray and factory pre-wired

The COM 2000 continues the tradition of hard working, affordable avionics by Val Avionics. We are proud to introduce the smallest panel mounted COM radio available today. Turning back to a more traditional design, the COM 2000 features dual concentric knob controls, displayed active and standby frequency with push button flip-flop, 15 memory locations with user defined alphanumeric channel identifiers and a manual squelch control. It's 3/8" character display is easy to read from any angle and in any lighting condition. This mighty little radio's all metal construction is designed to serve all your commu-

Specifications

Features
